

AHAMED SAHIB

Software Engineer | Front End Engineer

Thoothukudi, India | P: +91 9080672554 | adsahib39@gmail.com | www.linkedin.com/in/ahamed-sahib-ml

PROFESSIONAL SUMMARY

Dedicated Front End Developer with 4 years of hands-on experience in crafting dynamic and responsive web applications. Proficient in Angular, React, SASS, Tailwind, TypeScript, and Node.js, with a passion for creating visually appealing and intuitive user interfaces. Adept at translating design concepts into functional and high-performance code. Committed to staying current with the latest front end technologies and best practices. Excited about contributing technical excellence to drive impactful user experiences in collaborative team environments

SKILLS

- **Languages:** HTML, CSS, JavaScript, Typescript, Tailwind
- **Framework:** Angular, React
- **Server Side Scripting:** Node JS
- **Repository:** Github, Azure Repo

EXPERIENCE

HashMato - Chennai, India

Feb 2024 - Present

Software Analyst

- Designed and developed intuitive user interfaces for restaurant meal ordering systems, significantly enhancing customer engagement and user satisfaction.
- Led the frontend development of online ordering platforms, delivering responsive and accessible user interfaces tailored to diverse customer needs.
- Implemented secure payment integration and enhanced checkout features, ensuring seamless transaction flow and improved user experience.
- Developed an admin dashboard for order and user data management with role-based screen access, streamlining operations and reducing complexity for administrative users.
- Utilized Tailwind CSS to craft responsive web and mobile applications with consistent visual styling across devices.
- Integrated third-party libraries for form handling and leveraged Zustand and Redux for efficient state management in React applications.
- Collaborated closely with backend and QA teams to ensure pixel-perfect implementation and smooth cross-functional handoffs throughout the development lifecycle.

TVS Next - Chennai, India

Jun 2021 – Jan 2024

Software Analyst

- Worked on a Finance based project, Modernizing the application from legacy into Modern technology.
- Enhanced user experience by optimizing web applications for maximum speed and scalability.
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Enhanced application performance by optimizing Angular components and implementing efficient coding practices.
- Developed reusable UI components using Angular libraries, promoting code consistency across projects while reducing development time significantly.
- Implemented Role-based screen mapping and ensured only authorized navigations were possible.
- Worked in requirement gathering, analysis, development, unit testing, and end-to-end deployment using Agile methodology.
- Collaborated with cross-functional teams to develop high-quality software products within tight deadlines.

SKILLS

- Earned the Best Developer of the Year (2024) for exceptional technical contributions and innovation.
- Received the Spotlight of Excellence Award for two consecutive years (2021–2023) in recognition of outstanding performance, work quality, and timely delivery.
- Recognized for outstanding and collaborative teamwork with the prestigious Super Squad Award.

EDUCATION

B.E in Computer Science and Engineering

Jun 2021

Velammal Engineering College

ADDITIONAL

- **Languages:** Tamil, English
- **Hobbies:** Cooking, Playing, Travel
